

# Oslo City Hub

Nordic Market Dialogue on  
Zero emission

---

Peter Stangeland | Chief Commercial Officer

# What kind of product/solution does your company offer related to zero emission delivery of goods?

We offer the worlds first emission free distribution center in the capital of Norway

All our distribution in Oslo is solved through our electric and biogas fleet

We save on this solution 300 tones of Co2 annually

#stoptalkingact

## How can your product/solution solve needs and challenges of public/private actors?

Municipalities have really started to focus on emission free solutions and sustainability

Our solutions are emission free, and the noise reduction has also been reduced heavily

At the same time the municipalities are taking away delivery zones

Our customers also needs to adopt

#stoptalkingact

# Examples and advantages

We have been delivering emission free in Oslo and Bergen since 2018

We have the largest fleet of Fuso electric delivery trucks in Europe

Our sustainable and emission free solutions are helping our customers to win bids from the municipalities

Our solutions are available today
