

Nordic cities aim for climate-smart delivery of goods - do you have the solution?

Thursday March 26th 2020
Nationaltheatret Konferansesenter, Oslo

Register here before March 6th.

- 10:00 Background and goals
- 11:00 Lunch
- 12:00 Pitching: innovative solutions
- 12:30 Workshop
- 13:45 Coffee break
- 14:00 Questions and whats next
- 14:30 Optional 1:1 meetings
- 16:00 End of day

Twelve cities across the Nordic countries invites you to engage in a market dialogue. Together we can accelerate the transition towards zero emission logistics.

Emissions from goods delivered to the public sector represent a substantial part of the total emissions in the Nordics. Municipalities purchase an enormous range of physical goods. Copenhagen alone estimates that product deliveries lead to 4.5 million kilometres travelled every year within the city limits - 112 trips around the world. Give us your ideas the 26th of March on how we can solve this challenge together!
