www.onemed.no

What kind of product/solution does your company offer related to zero emission delivery of goods?

Electric cargo bikes and electric vehicles for delivery of medical equipment to municipality customers

Oslo and Lørenskog

Bergen

Other cities and areas

How can your product/solution solve needs and challenges of public/private actors?

Decrease pollution

Less traffic jams and congestions

Less noise

Examples and advantages

Advantages are obvious – but it can be more...

Municipality obstacles that prevent further efficiency and more green deliveries;

- *Lack of charging stations at delivery points*
- *Narrow contractual windows for goods deliveries (presently 8-15)*
